

SEWEWA LLC

FEDERAL CLOUD • DEVSECOPS • CLOUD SECURITY

PUBLIC CAPABILITY STATEMENT
Prime & Teaming Support

Mission-ready engineering for secure cloud delivery.

AWS modernization • On-prem to cloud migration • Infrastructure automation • Platform engineering

CORE CAPABILITIES

Secure cloud engineering from architecture to operations.

SEWEWA LLC supports prime contractors and delivery teams with hands-on AWS, DevSecOps, migration, security, platform engineering, observability, and resilience capability.

01 Cloud Architecture & Modernization

- Multi-account AWS foundations & landing zones
- Application and infrastructure modernization
- High availability and cross-region architecture

02 Migration & Modernization

- On-premises to AWS workload migration
- Physical/virtual server migration
- Database migration and modernization

03 Infrastructure as Code & Automation

- Terraform and AWS CloudFormation
- Infrastructure CI/CD and approvals
- Reusable multi-environment patterns

04 DevSecOps & CI/CD

- GitLab CI/CD and secure SDLC
- SAST/DAST, secrets and vulnerability scanning
- GitOps, controlled releases and policy checks

05 Containers & Platform Engineering

- Amazon EKS/ECS and Kubernetes
- Helm, Argo CD and scalable compute
- Platform operations and deployment standards

06 Cloud Security & Resilience

- IAM, KMS, GuardDuty, Inspector and WAF
- Centralized logging and incident readiness
- Backup, disaster recovery and failover testing

FEDERAL TEAMING & SUBCONTRACTING

STAFF AUGMENTATION

AWS Cloud Engineers
DevSecOps Engineers
Cloud Security Engineers
Terraform / Platform Engineers

TECHNICAL WORK PACKAGES

Cloud & migration delivery
CI/CD and IaC implementation
Security remediation
Observability and DR

PROPOSAL / TEAM SUPPORT

Technical solution input
Key-person qualifications
Architecture & delivery planning
Defined workshare discussions

REPRESENTATIVE KEY-PERSON EXPERIENCE

Secure AWS foundations - multi-account architecture, IAM guardrails, centralized logging and encryption controls.

Modern delivery platforms - Terraform, GitLab CI/CD, EKS/Kubernetes, GitOps, monitoring and automation.

Migration & resilience - workload/server migration, database modernization, backup, recovery and cross-region failover.

Representative experience reflects SEWEWA leadership and key personnel. Corporate past performance is provided separately when applicable.

COMPANY PROFILE

SEWEWA LLC

Texas-based technology consulting company focused on federal and commercial cloud, DevSecOps and security engineering.

Primary NAICS

541512 - Computer Systems Design Services

Additional NAICS

541511 • 541513 • 541519

UEI / CAGE / SAM.gov

Available upon request

DIFFERENTIATORS

Practitioner-led delivery

Architecture through implementation and operations.

Security integrated by design

Controls embedded into infrastructure and delivery workflows.

Automation-first

Repeatable IaC, CI/CD, configuration and operational patterns.

Flexible teaming

Staff augmentation, bounded work packages and capture support.

KEY-PERSON CREDENTIALS

AWS Certified Solutions Architect - Professional
AWS Certified DevOps Engineer - Professional
AWS Certified Security - Specialty
AWS Certified Solutions Architect - Associate
CompTIA Security+

TECHNOLOGY FOCUS

AWS • Terraform • CloudFormation • GitLab CI/CD
• EKS • Kubernetes • Argo CD • CloudWatch • Splunk
